

# EXAM RESULTS

## EBA11802 Mathematics for Data Science, 2022a (including the old exam code EBA29102)

Department of Economics, Runar Ile

### Statistics

Submitted answer papers	46
Grade A-B	24%
Grade F	43%
Average score	45%

### Comments

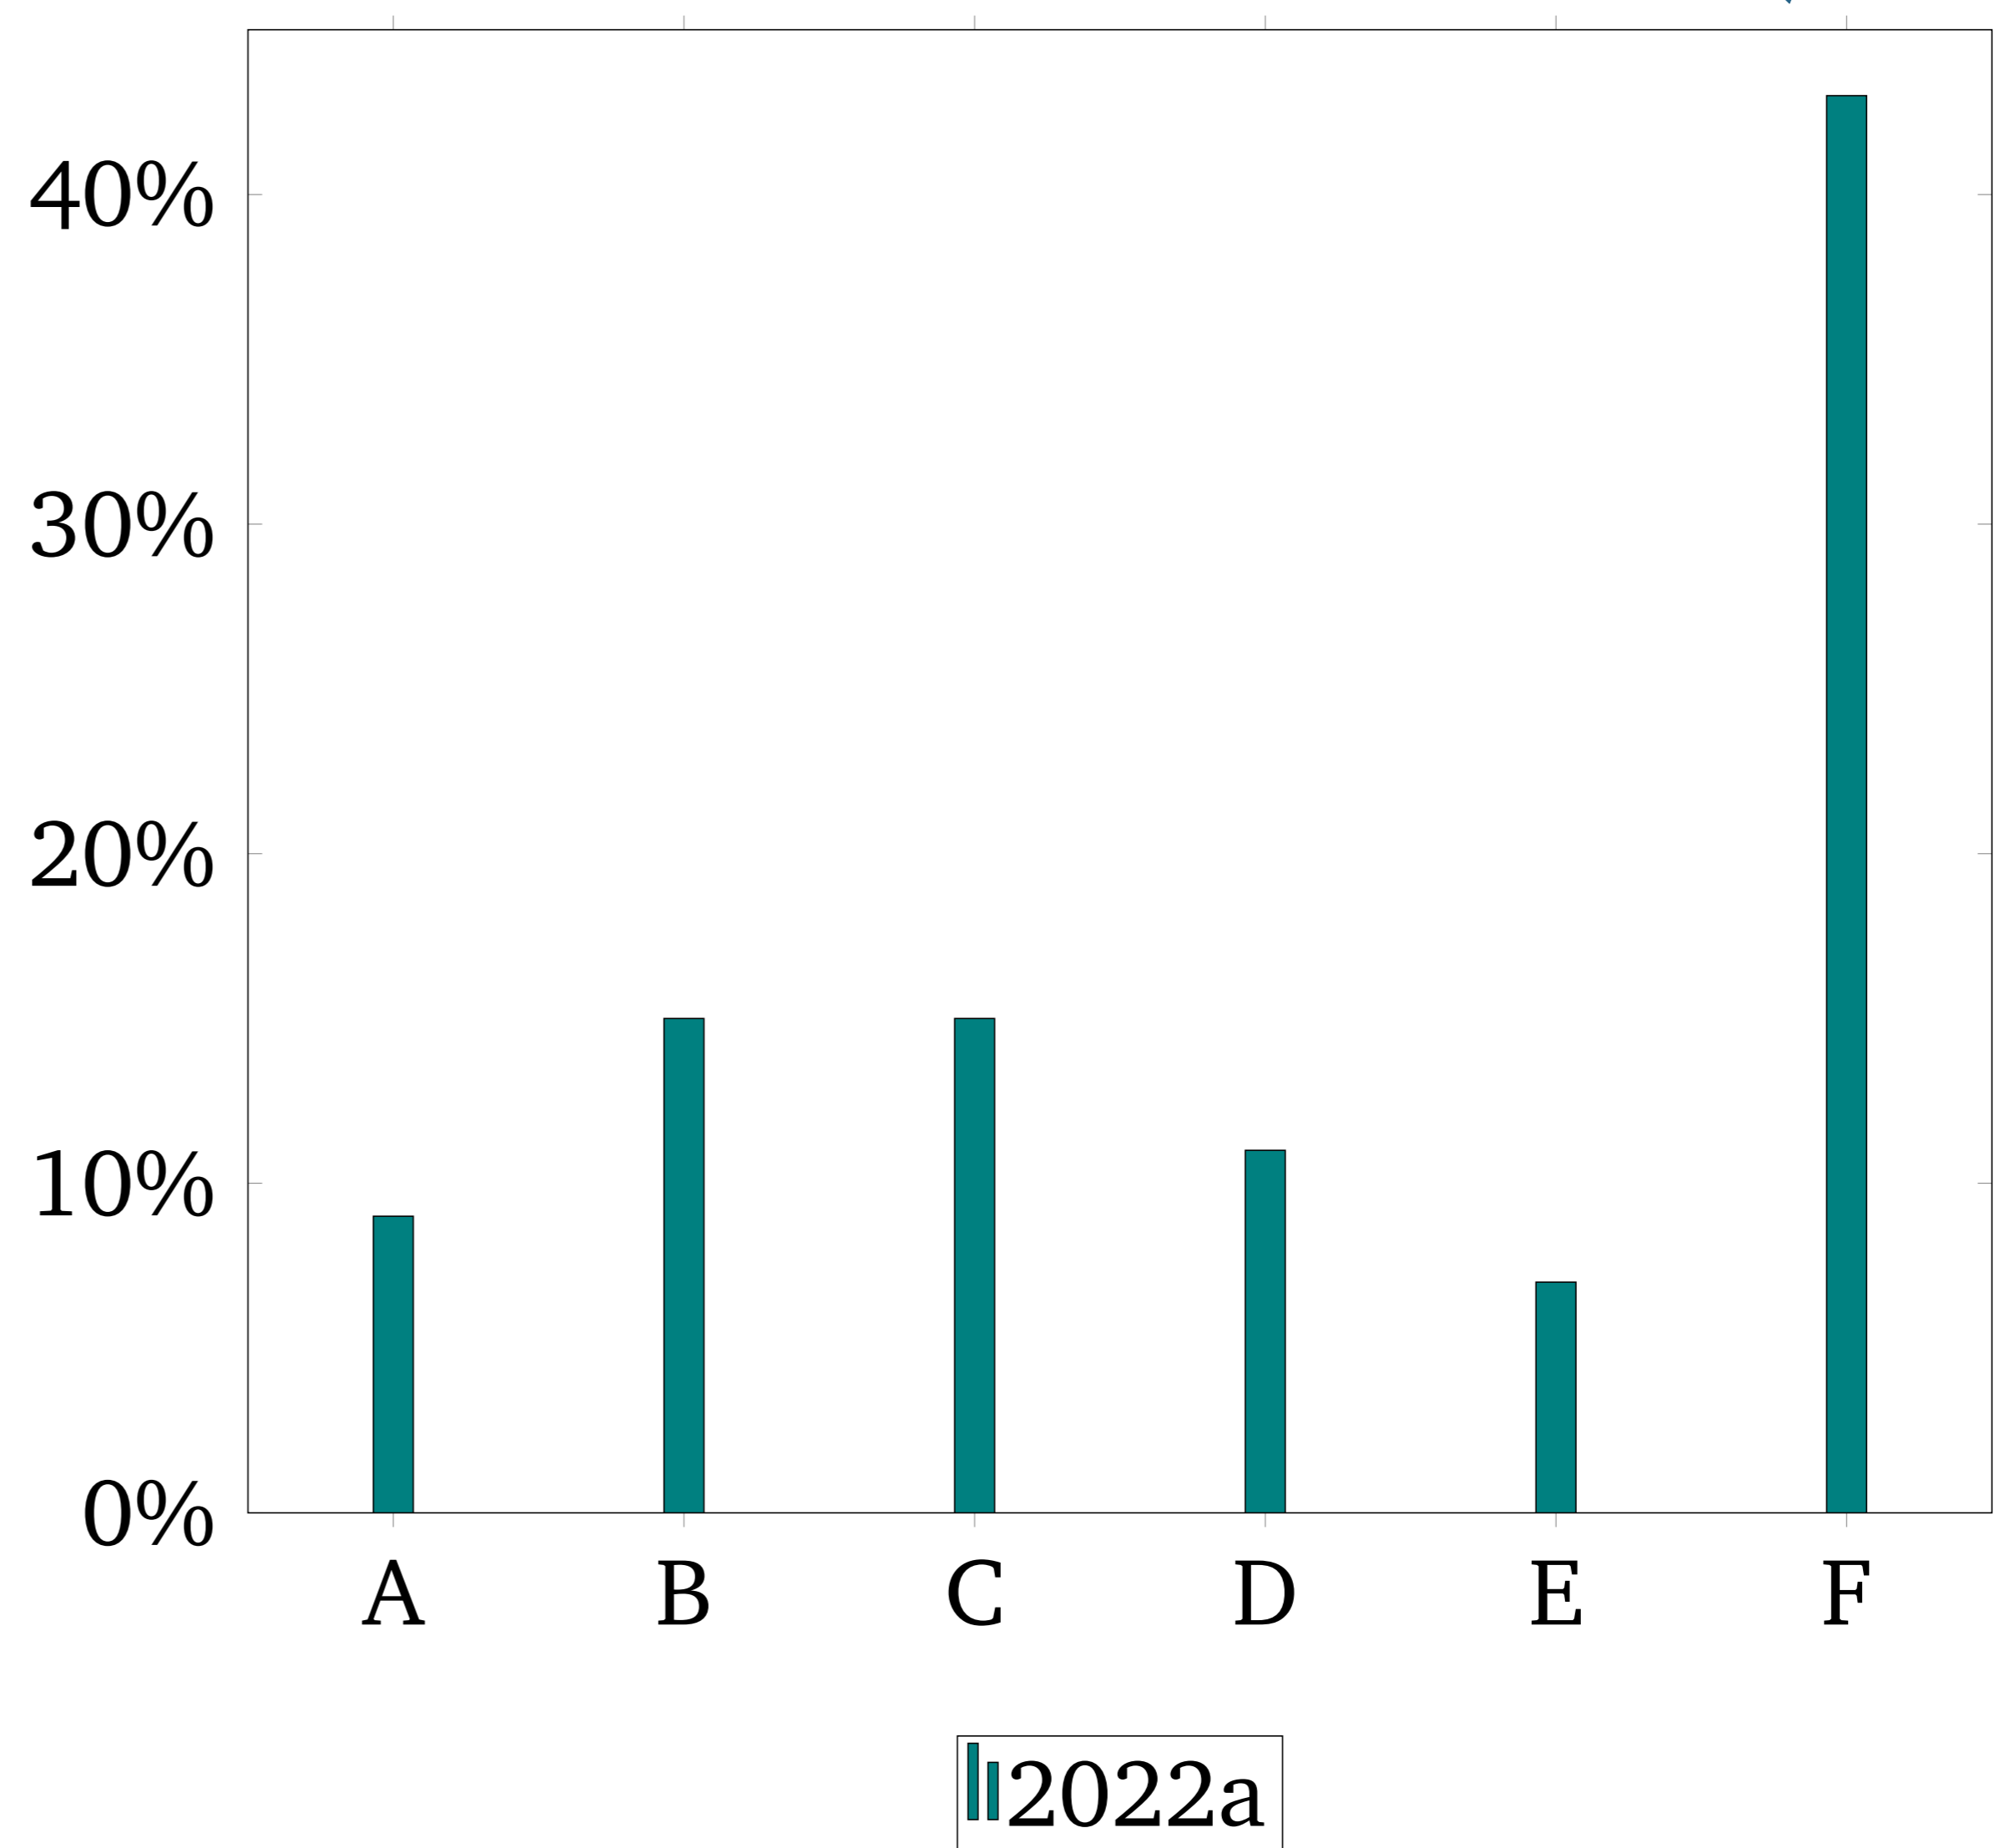

This is the first time we have school exam with written reasons in EBA11802/EBA29102. In the big F-group there are many with very low score. On the other hand 24% in the (A+B)-group is quite decent. Many of the problems have a score not too far away from the average 45%. As expected the variation of topics turned out to be a challenge. Most students had some holes in their knowledge, but which holes varied from paper to paper.

#### Average score for each problem (%)

Oppg 1-4	60 – 41 – 47 – 42
Oppg 5-8	42 – 33 – 53 – 58
Oppg 9-12	52 – 43 – 30 – 34

A detailed solution set has been published.
